Summary

Results-driven Backend Developer with over 5 years of experience in developing, and deploying robust backend systems and REST APIs. Specializing in Node.js (3+ years) and Laravel, with a proven track record of building scalable microservices architecture for E-commerce, SaaS, and Healthcare applications. Expertise includes secure payment gateway integration, subscription lifecycle management, and database optimization.

Professional Experience

Webmobril Technologies Pvt Ltd, Noida
Node.js & Laravel Developer | Jan 2020 – Present

- Engineered and maintained high-performance REST APIs using Node.js (Express.js) and Laravel, serving over 10,000 concurrent users in a production environment.
- Designed and implemented a scalable microservices architecture for a comprehensive HRMS platform and a multi-vendor e-commerce application, improving system modularity and fault tolerance.
- Successfully integrated multiple international payment gateways, including Stripe, PayPal, Sofort, and iPay88, processing thousands of transactions securely.
- Implemented robust authentication and authorization mechanisms using JWT and OAuth2, securing sensitive user data across all applications.
- Managed and optimized complex database schemas in MongoDB and MySQL, achieving a 30% improvement in query response times.

Qtriangle Infotech Pvt Ltd, Noida
PHP (Laravel) Developer | Oct 2018 – Dec 2019

- Developed and delivered backend modules for large-scale e-commerce platforms using Laravel and CodeIgniter, contributing to the successful launch of over 20 live projects.

- Built critical features such as multi-step order management, inventory tracking, and custom reporting dashboards, which provided key business insights.
- Collaborated closely with frontend developers to ensure seamless API integration and a smooth, responsive user experience.

Technical Skills

- Backend: Node.js, Express.js, PHP, Laravel, REST API Design, Microservices
- Databases: MongoDB, MySQL, Database Design & Optimization
- Authentication: JWT, OAuth2, Passport.js
- Payments: Stripe, PayPal, Sofort, iPay88
- DevOps & Cloud: AWS (EC2, S3), DigitalOcean, CI/CD, Git, Bitbucket, Docker (Basic)
- Frontend: React.js (Basic), jQuery, AJAX, HTML5, CSS3

Key Projects

Employ Mint HRMS

https://employmint.io

Backend Developer (Node.js, MongoDB, Express.js)

- Architected and built the core backend for a multi-tenant SaaS HRMS platform, supporting modules for payroll processing, employee records management, attendance tracking, and performance reporting.
- Implemented a secure REST API to handle all data operations, ensuring data privacy and role-based access control for different user types (Admin, HR, Employee).
- Designed the MongoDB schema to efficiently store and retrieve complex, nested employee data, leading to fast and reliable reporting.

Carroh App

https://carroh.com/panel

Backend Developer (Node.js, MongoDB, Socket.IO)

- Developed the complete backend for a real-time, on-demand service marketplace, focusing on order management, payment processing, and location-based services.
- Integrated Stripe and PayPal to handle complex payment flows, including multi-party transactions and refunds.
- Implemented real-time notifications for order status updates and user communication using WebSockets (Socket.IO), enhancing user engagement.

Weather Democracy

https://weatherdemocracy.com

Backend Developer (Laravel, MySQL)

- Designed and developed a robust set of REST APIs to serve weather data from multiple sources to a public-facing web application.
- Built a comprehensive admin panel for data management, user administration, and API key generation, giving administrators full control over the platform.
- Optimized API endpoints to handle high-volume traffic, ensuring 99.9% uptime.

Education

Bachelor of Technology (B.Tech), Information Technology
Kamla Nehru Institute of Technology (K.N.I.T), Sultanpur — 7.0 CGPA (70%)

Languages

- English: Professional Working Proficiency
